

**CERRI** was founded in 2016 as a Migratory Bird Task Force recommendation. CERRI's primary task is to *compile, organize, and manage Traditional Ecological Knowledge (TEK) and conduct environmental research.*

## RESEARCH: Fishery, Coastal Ecology, Cumulative Effects, Groundwater

## LANDUSERS' CAPACITY BUILDING

## COMMUNITY OUTREACH

## YOUTH PROGRAM: STEM-TEK Science, Technology, Engineering, and Math with Traditional Ecological Knowledge

Marine Scientist  
Dante Torio, PhD

### Youth Co-researchers

Nicolas Chakapash (Trapline CH6)  
Remote Sensing, Plant Propagation, COVID Testing

Jessie James Scipio (Trapline CH7)  
Plant Propagation, COVID Testing

Isaiah Coonishish (Trapline CH2)  
Fisheries and biodiversity

Preston Bobbish (Trapline CH7)  
Groundwater, geotechniques
